

tritech

Applying The Evolution

Triotech company is in the business of mCommerce service delivery, Mobile Application and Enterprise Solution platform Development and VAS Aggregation. Mobile phones are becoming an integral part of our lifestyle and India is the second-largest user-base in the world. With over 900 million mobile phone users to cater to these phones need intelligent apps and solutions, and Triotech is working towards building a strong ecosystem around this.

With more than 60 years of combined experience, the management team @ Triotech intend to Think, Innovate & Deliver, cutting-edge M-Applications, Enterprise Solutions and Service Delivery play, in the area of M-Commerce, M2M, Entertainment, Education & Health...!

At Triotech, we are dedicated to creating technological solutions that make life easier and focussed towards Customer Centric Play. Using our expertise, we create wholesome solutions for mobile users with our three main service offering groups-

Customer Value Group - We provide Value Added Services such as SMS, IVR & WAP functionalities for leading telephony operators. We at Triotech also focus on applications in the area of Health and Education to add real "Value" to the Value Added Services in Mobile Telephony.

Payment Solutions Group- At Triotech, we recognize the importance an eco-system for easy mobile payments involving small transactions, hence Triotech is actively involved in the development of M-Commerce systems that address the needs of rural as well as urban India. Our forward-thinking approach in this field has led us to be responsible for complete operationalization of the m-Wallet services for biggest nationalized bank & telecom operator.

Innovative Product Group- Triotech solution's Innovative Product Group (IPG) is the development arm, responsible for developing innovative apps and solutions for mobile users. At Triotech, we design apps for a wide range of consumers ranging from the fields of entertainment all the way to security.

We are now the preferred associates of some mobile Operators, nationalized Bank, and the Department of Post. Keeping Technology at the core of business, we have strategic partnerships with global companies like Gemalto and Amdocs.
